

# 2009 Summer Plant Biology Day

UCSD Natural Science Building Auditorium

Friday June 12, 10:30 am – 3:00 pm

- 10:00am – 10:30am**      **BREAKFAST**
- 10:30am – 11:00am**      **Laurie Smith, UC San Diego**  
*Asymmetric cell division*
- 11:05am – 11:35am**      **Zhen Biao Yang, UC Riverside**  
*Hormonal regulation of cell morphogenesis in Arabidopsis*
- 11:40am – 12:10pm**      **Zhen Hui He, San Francisco State University**  
*Role of Root UV-B Sensing in Early Seedling Development*
- 12:10pm – 1:00pm**      **LUNCH is provided**
- 1:00pm – 1:30pm**      **Peter Beetham, CIBUS llc**  
*Cibus Rapid Trait Development System: Commercializing new technologies.*
- 1:35pm – 2:05pm**      **Frans Tax, University of Arizona**  
*Regulation of fruit organ number in Arabidopsis by CLV1*
- 2:10pm – 2:40pm**      **George Chuck, UC Berkeley**  
*The control of plant aging by a pair of opposing microRNAs*
